

NETMON and Access 2 Networks (A2N) sign new distribution Agreement

NETMON and A2N sign new distribution Agreement Partnership increases reach to Netmon Network Monitoring for Ontario MSP and enterprise IT clients.

WINDSOR, Canada – Nov 8, 2016 — Netmon Inc., the provider of powerful and complete network monitoring solutions today announces a new distributor partnership with Access 2 Networks (A2N), a leading provider of Information Security Solutions in Canada.

Netmon combines the best in Network Monitoring tools with its proprietary Network Traffic Analysis engine in a highly intuitive administrative interface to provide a “2nd-to-none” complete monitoring and troubleshooting solution for System Administrators and IT Professionals.

Darin Barton CISSP CISA, Senior Account Executive at A2N stated, “As soon as we saw this monitoring solution we knew it was a winner. We’re extremely pleased with the solution, the partnership and the positive energy the Netmon team brings to the table.

“We are excited about Access 2 Networks’ (A2N) experience and their relationships with their clients, providing unparalleled levels of service and support to the professional IT marketplace. We believe our combined partnership will help us reach wider audiences across Canada and are confident that Access 2 Networks (A2N) is the right exclusive distributor for Netmon in this expanding IT industry in Canada.” Eric Lamoureux - President and CEO of Netmon Inc.
